

French

In French this term we are learning:

- Days and months;
- A Jack and the Beanstalk French story.

Art This term our focus is Roman mosaics and digital imagery. We will be:

- Exploring the work of famous artists;
- Completing Roman mosaics and traditional weaving;

History

This term our focus is Invaders and settlers: Romans. Looking at the importance this period of history played on our local area.

R.E.

We will be learning about Hinduism:

Key question:

How can Brahman be everywhere and in everything?

Music

We will be learning French songs as well as songs relating to The Singing Picnic.

Design Technology

Designing and making moving vehicles and packaging.

P.E.

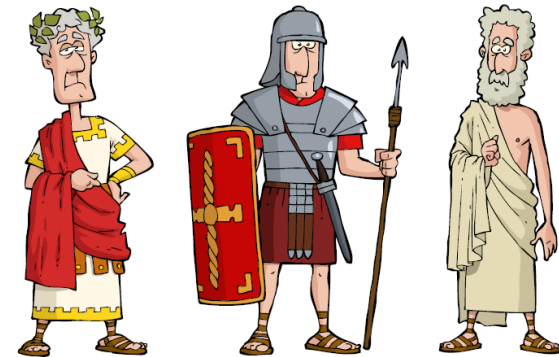

Children will be focusing on small ball skills which will lead onto games of tennis and rounders.

Athletics will start in the second half term.

PE days are **Monday** and **Tuesday**.

Annfield Plain Junior School

Year 3
Summer Term
Miss Angus

English

In English we are covering a range of work on:-

- Letter writing;
- Haiku poems;
- Explanation texts;
- Mystery and Adventure Stories;

Please note:

Reading is a high priority in Year 3. Please sign your child's book every night after they have read for 10 minutes and please hear your child read at least 5 times a week. Asking them to read out loud helps develop reading fluency and clarity and also gives the parent a chance to hear where mistakes are being made. **We ask your child to bring their reading book and record into school every day so their books can be checked and house points awarded for every signature. Children can earn up to 7 house points a week for home reading.**

Children will receive a new spelling rule every Monday, which should be practised at home for a mini spelling test on Friday.

Maths

In Maths this term we will be focussing on:-

- Length and perimeter;
- Statistics;
- Shape;
- Mass and capacity;
- Time.

Maths times table homework will be given on a Monday and due Friday.

Science

In Science this term we will be:

- Exploring the use of magnets and forces;
- Experimenting to see how different forces effect movement;
- Exploring the human body and its organs;
- Understanding the roles of different body parts.

I.C.T.

The main focus will be:-

- Creating and using simple databases;
- Writing leaflets;
- PowerPoint's;
- Programming and coding.

How you can help at home?

- Hear your child read on a regular basis and sign their reading record. Reading plus can also be used as a form of reading.
- Help your child to practise their spellings across the year.
- Encourage your child to learn their times tables. Passwords can be found on their password bookmarks.
- **Ensure that your child has their PE kit in school all of the term** (occasionally the school time table can change or PE kits are needed in other lessons, for this reason we ask that PE kits are available in school all week).

THANK YOU
